Sakonnet is an exotic cottage garden imbedded within a native coastal fields landscape, a long-term project of **John Gwynne** and **Mikel Folcarelli**. The main garden is subdivided into a series of spaces separated by high tapestry hedges and stone walls. One space, planted with soft yellows seems to catch the sunlight on a gray, coastal Rhode Island day; a newly replanted zone is silver, punctuated with spires of weeping spruce; another evokes the subtropics - its centerpiece a red “Mughal Pavilion” imported from India. A Gothic Woodpile is one of multiple tall wind-barriers installed to create microclimates for experimental growing of rarely seen Zone 7 plants. Broken Arrow Nursery’s display will be nestled into this beautiful garden and will be staffed by **Carl Galanter**.
